

Main rules of project classes on course “Security of Computer Systems” – 2025

1. Each student must enroll to a project group (maximum 2 students) till 10.03.2025.
 2. Each project group has assigned nonnegotiable deadlines / dates for control meeting and final submission.
 3. It is allowed to submit project before the final deadline – this aspect is discussed with teacher.
 4. During submission (control meeting and final submission) the link (in *.pdf file) or report must be send by each project group member. No submission = no points.
 5. Any submission delay is punished by subtracting 5 points per day, even for 1 minute delay.
 6. The maximum number of students for each classes equals 18.
 7. It is allowed to create a project group (2 students) from 2 different student's group(*)
 8. (*) During project presentation all project group members must be present. Absence results in assigning 0 point for entire project.
